Program Highlights:

- The MS Finance program is STEM certified. Graduates are eligible for STEM OPT extension.
- Working in a team-based environment, students study alongside peers from across the United States and around the world including MBA counterparts offering insights into broader business principles. Students gain a global business perspective in their classroom and group interactions.
- Flexible curriculum can be tailored to foster your individual aspirations. Prepares students for careers in corporate finance; investment management; security analysis and brokerage; commercial and retail banking; and financial management of commercial and nonprofit organizations.
- Graduates are well-suited to pursue opportunities in commercial banking, investment banking, asset management, financial risk management and analytics, and other financial services companies within the U.S. and around the world.
- No prerequisite finance course work is required as all foundation courses are taught with the expectation that students do not have a prior finance background.
- Students have the opportunity to take part in the Student Managed Investment Fund (SMIF), a unique program that provides real-world portfolio management and security analysis experience.
