

MS MARKETING

Master of Science in Marketing

The MS (Marketing) program provides students with the breadth and depth of knowledge and skills needed for a career in one of the business world's fastest growing fields. To the extent marketing is both an art and a science, the program is a good career investment for students with a variety of backgrounds and experiences looking to develop technical expertise. It provides students experience in using theoretical concepts to solve marketing problems through consulting projects, case studies, and marketing simulations. The MS Marketing program is a good fit for students with liberal arts backgrounds who seek to develop technical expertise in a data driven field as well as those from strong technical backgrounds who have career interests in marketing.

"I chose Krannert because it is one of the best business schools in the U.S. Diversity is another reason. During my time here I have had the opportunity to meet many students with a broad range of backgrounds and experiences. That diversity adds an enriching depth to the Krannert experience that is hard to place a value on."
