## MASTER'S PROGRAMS

### BUSINESS ANALYTICS & INFORMATION MANAGEMENT

### MASTER OF SCIENCE IN BUSINESS ANALYTICS AND INFORMATION MANAGEMENT (MSBAIM)

Become an industry leader using data to impact prominent companies from a STEM-designated program. The MSBAIM program equips you to extract meaningful insights from data and to deploy state-of-the-art information technologies and analytical techniques. The program’s rigorous curriculum and real-world application through experiential learning will prepare students to meet the growing data science demand.

- Apply classroom knowledge to real-world problems through experiential learning.
- Increase competency in current best practices of data handling and analysis.
- Meet with influential data-science and consulting companies.
- Gain opportunities to earn industry certifications and compete in business analytics events.
- Students also enjoy access to a wide range of business foundation courses through the Krannert School of Management.

I had heard so much about Krannert’s strong technical and analytical focus before coming here. The strong industry connections and experiential learning opportunities have given me the hands-on experience I need. Krannert has really prepared me well for the future, enhancing my technical abilities, while the team dynamic has made me more open-minded when working with future colleagues.”
