Master of Science in Marketing

The MS Marketing program provides students with the breadth and depth of knowledge and skills needed for a career in one of the business world’s fastest-growing fields. To the extent, marketing is both an art and a science, the program is a good career investment for students with a variety of backgrounds and experiences looking to develop technical expertise. It provides students experience in using theoretical concepts to solve marketing problems through consulting projects, case studies, and marketing simulations. The MS Marketing program is a good fit for students who seek to develop technical expertise in a data-driven field as well as those from strong technical backgrounds who have career interests in marketing.

Program Highlights

• The MS Marketing program is STEM designated. Successful graduates of the program may be eligible for STEM OPT extension.

• Digital Marketing Lab that provides experiences in managing day-to-day operations in digital and social media platforms, identifying trends in digital marketing, and implementing digital and social media strategies to enhance an organization’s online presence.

• Various elective courses, consulting projects, and small group immersion courses provide students many opportunities to tailor the program to their career plans.

• Elective courses provide in-depth knowledge around a focused topic, which allows students to pursue courses focused on their career aspirations. Immersion courses allow a small group of students to work closely with Krannert faculty to solve a current marketing problem.

• Industry workshops and company outreach in major cities to engage with business professionals and experience new marketing topics in the industry.
