

MSHRM COMBINED DEGREE PROGRAMS

Rev: April 2022

Master of Science in Human Resource Management (MSHRM)

Our combined degree programs provide high-achieving undergraduate students at Krannert or those earning a BA in Communications, a BS in Human Resource Development, or a BS in Psychology an opportunity to accelerate their education. Begin your human resource career with solid preparation and a starting salary of 1.5x greater than students seeking employment directly following their bachelor's degree.

Students in a combined degree program add master's-level coursework in HRM and experiential learning opportunities to their academic journey while still an undergraduate.

The combined degree programs provide a seamless transition from your bachelor's to your HRM master's program by allowing select graduate courses taken as undergraduate electives to count toward both the undergraduate and graduate degrees, thereby reducing the overall time required for the master's degree.

Requirements

- Completion of 108 credit hours of coursework by the end of the junior year (6th semester), including Foundations courses; University Core requirements and cultural competencies, and any concentration courses required for the student's major.
- Have a minimum 3.0 GPA.
- Completion of at least one professional internship.
- Demonstration of leadership potential through extracurricular activities.
- Meet with academic advisor in their undergraduate advising office to discuss qualifications and potential plan of study.

Program Notes

- The Krannert Graduate Programs office holds a callout each fall for freshmen, sophomores, and juniors to explain the admissions process and communicate expectations for these combined degree programs.
- These combined degree programs require 36 credit hours of master's level courses over three semesters. Any master's level courses completed prior to enrollment cannot be used to meet course requirements of the combined degree.
- A minimum 3.0 GPA is required to receive the master's degree.

College Choice

"This combined degree program allowed me to earn my bachelor's in General Management in three years and my master's in Human Resource Management in a year and a half. This is extremely beneficial as it allows me to begin my career with a head start and with a specialization in human resources."

Ariana Loor, MGMT '21, MSHRM '21
