Master of Science in Accounting—MS(A)

This 10-month MS(A) program prepares you to take the CPA exam while enhancing your technical skills, improving your written and oral communication skills, and developing your critical thinking and leadership skills. Whether you plan to pursue a career in assurance, tax, consulting or industry, the flexibility of the MS(A) program allows you to get the graduate-level educational experience you need to be successful. Pair this with the ability to pursue CMA certification throughout your studies and readiness to take the CPA exam, and you will appreciate the significant value in the 10-month program.

"The flexible curriculum not only gave me the traditional classroom courses, but also afforded me the opportunity to work with real-life clients that helped to further develop me as professional and expand my network. From the faculty and staff to the courses offered, Krannert did nothing short of equipping me with the necessary skills and knowledge to successfully begin my career."

Neil Steen, '17 MS Accounting, Crowe Horwath

"Throughout this program, I was able to take classes and participate in extracurricular activities that helped develop not only my technical accounting skills but also my communication and networking skills. As a result of the classes that I took, I feel much more prepared for the CPA exam and ready to embark on my career in public accounting."

Laura Poletti, '17 MS Accounting, Deloitte

"The opportunities I have had in the Master's Accounting program have further developed my career potential. I have had internship experiences that allowed me to experience both the public accounting and industry sectors of the accounting world at Ernst & Young, LLP and SC Johnson & Son, Inc. In both settings I was able to effectively apply the knowledge and skills I have gained in my classes at Krannert. I also have professors who have become my mentors and advisors outside of the classroom as well."

Claire Conneely, '18 MS Accounting
